Attention: Michael Marmur

Dear Michael,

Thank you for the exceptional service and results you produced for our Gala this fall. Every year we face the challenge of coming up with an innovative way to give our attendees a memorable experience that captures the spirit of excellence we celebrate at our year end awards Gala.

My experience dealing with your company was truly remarkable. Less than 2 weeks before our event you responded to my inquiry promptly and made recommendations on how we could photograph over 300 people in less than 4 hours.

Last night I was blown away with the final product your team produced. Your lead photographer immediately got people engaged with our props of scarves and skates and efficiently organized teams into amazing compositions. He was a wizard and seemed to thrive on the chaos and energy of the event to get people really engaged and excited about having their photo taken with the Olympic Torch.

In total our team walked away with over 475 beautifully framed portraits that they have proudly displayed on their desks as a lasting reminder of the teamwork they achieved with their friends and colleagues at RBC.

Thanks for making our event unforgettable!

Sincerely,
Jennifer McCarthy
Regional Sales Manager Small Business
